WHO I AM

I'm a young professional, computer scientist, researcher in elastic optical networks and front-end developer. For a little over 2 years I have been working with web development, but also with aspirations in UI/UX Design and Mobile Development.

EDUCATION

Bachelor's Degree | Universidade Federal do Piauí - UFPI

Computer Science: 80% completed.

EXPERIENCE

Scientific Initiation - PIBIC | CNPq | Aug 2019 - Aug 2021

CNPq Researcher at the Computer Networking and Distributed Systems Laboratory - DISNEL. Working in the area of Elastic Optical Networks, I developed a resource allocation algorithm that was published and orally presented in the XXXIX Brazilian Symposium on Computer Networking and Distributed Systems - SBRC 2021.

Front-End Developer | Ponto Sistemas | Feb 2022 - Feb 2023

Front-End Developer and UI/UX Design of a web application for carrying out customs inspections online. During the development we used technologies like VueJS 3 and SASS to create the visual components.

COURSES

React.js + Next.js | Udemy | Prof. Luiz Otávio Miranda

23 sections • 433 lessons • Total Duration: 92h 34m

Complete Guide of Vue JS - Incl. Router & Vuex | Udemy | Prof. Leonardo Moura

26 sections • 455 lessons • Total Duration: 42h 55m
