WHO I AM

I am a software engineer, computer scientist, and researcher in the field of computer networks. I have over 5 years of experience in web development and various projects using other technologies, as well as integrations with AI. My goal is to combine my technical and scientific background with my creativity, creating solutions that add value to the product and the company.

EDUCATION

Bachelor's Degree | Federal University of Piauí - UFPI | 2018 - 2023

Computer Science

Master's Degree | Federal University of Piauí - UFPI | 2026 - In progress

Computer Science - Computer Networks

EXPERIENCE

Scientific Research - PIBIC | CNPq | Aug 2019 - Aug 2021

Researcher at the Computer Networking and Distributed Systems Laboratory (DISNEL), where I worked in the area of elastic optical networks. I developed a resource allocation algorithm in Java that was published and presented in the XXXIX Brazilian Symposium on Computer Networks and Distributed Systems (SBRC 2021) through a paper.

Front-End Developer | Ponto Sistemas | Feb 2022 - Feb 2023

I worked as a front-end developer for an online customs inspection project, where I was responsible for web application development and design. I used technologies such as Vue 2 and SASS to create high quality visual components. In addition, I worked collaboratively with other teams to ensure seamless integration with business rules.

Front-End Developer | INDECX | Mar 2023 - Present

Responsible for the implementation and transition of a new version of the customer satisfaction survey platform, with thousands of active users. I developed standardized UI components and APIs using Vue 3, Node, and MongoDB, along with modern libraries. Additionally, I assisted in the development of other company products using different technologies.
